To Whom It May Concern:

It is with great enthusiasm that this letter is being written to recommend the professional services of Reflex Brands. We were referred to them by a local vendor when we were seeking to update our Church website and we are very happy to have their partnership.

Our old website was horribly outdated and extremely difficult to edit. It did very little to generate excitement among people who were visiting us online. To make matters worse, none of our staff were technically literate enough to know what we wanted and needed in the way of design and function.

During our first meeting with Reflex Brands we knew that we had made the right decision. The consultants are friendly, knowledgeable, creative, and immediately responsive to our questions and needs - one of their consultants was even available to us at midnight on the first weekend we posted a recorded sermon during the COVID-19 crisis! They were able to design a website that reflects our mission, values, and love for Jesus Christ. In addition, they have remained as faithful to our relationship as they were in the very beginning.

With continued guidance and support from Reflex Brands we have easily learned to make edits and updates. For more complicated changes, the team designs and provides functionality for us. We have also included them in our design for letterhead and Church graphics because we value their creativity and expertise.

Our website is now inviting and engaging and utilizes iconic objects that are associated exclusively with First Presbyterian Church of Murrysville. You are welcome to visit our site at: www.firstpresbymurrysville.com to see for yourself the product of their dedication and commitment.

We hope that anyone considering Reflex Brands for their website services will call us for further discussion of our excellent experience with them!

In Christ's Service,

Rev. Edward R. Gray
